On the hills of green,
Like a stately queen,
We behold thee Blue Ridge High
Alma Mater thou, lead thy students now,
In the paths our minds should follow.
Hail to thee, oh majesty,
Teacher of the truth,
Guide and friend, with thee we spend
These golden moments of our youth.
But the time goes by, and the years will fly,
With the swiftness of the swallow.
Then we'll go our way, but a part of us
Will stay in thy halls, oh dear Blue Ridge,
Hail oh Blue Ridge High.

On July 1, 1952, six districts decided to form a jointure for their mutual educational benefit. Those districts – New Milford, Hallstead, Great Bend, Jackson and New Milford and Great Bend Townships – each were to supply five school directors. After a five-year investigation and discussion, a site was selected in 1957. To keep the honor and glory of the graduation moment, for a decade teachers at the high school purposed to lock boredom and prejudice outside the classroom door; administrators sought to maintain harmony through unbiased judgments; students faced with the awesome responsibility of making a new school work, listened to the dictates of their hearts, softened their surging zeal for their former schools, and, for the most part, complied with the rules. As a result of community effort, in 1959 the name Blue Ridge High School served as a link to join these communities in education. The man most responsible for unifying the six districts into a smoothly functioning organization was Wayne C. Webster, a quiet, unassuming, yet straight forward man who did much for our school community.

The school was dedicated in 1959 for the improvement of the educational program that the people would never lose sight of the responsibility each had to keep it an institution of which all could be justly proud – not for its appearance and utility alone, but for the high standards of academic and civil achievement that can be realized when an awake and appreciative group of communities works hand in hand with a school system staffed with competent and conscientious teachers and administrators.

There are fourteen of the original teachers and one of the first administrators still at Blue Ridge. These are sometimes called "The Old Guard" because they are a group of conscientious teachers who have shown special interest in the students' present development and in their future needs.

In this decade the schedule has been extended to include more tracts flexible enough to meet the needs of most students. In the ten years since we have entered our new building, the number of varsity sports has doubled. This, and the increase in junior varsity and girls' sports, allows more students to reap the harvest of sports.

A summary of Blue Ridge plays and musicals reveals that they have improved over the years. This improvement has been made, chiefly, by the students. Enemies have become friends; acting has become a career instead of a race for arrogance. Helping the school, not himself, to fame and stardom has become the major goal of the Blue Ridge High School member.

In appearance, we see an increase in the size of our high school. On the inside, we see the improvement of education with the introduction of advanced mathematics, science, and English courses. Each year brings closer harmony and increasing understanding of students by faculty, administrators, and others associated with the school.

This year a Student Council was formed with faculty supervision. Now that students may have more voice in school matters, an increase in school spirit will result. Not only has our spirit changed towards sports, but most of the students feel a new respect for the school itself. But the greatest award that can be accredited to Blue Ridge High School is one which is not tangible like the numerous trophies and awards in the trophy cases and on the walls. It is rather the realization that so many Blue Ridge graduates have left our school, gone out and found success in the world. Students who have left our school and gone on to higher education have been extremely successful in their endeavors. The percentage of graduates who have decided to go on to higher education is in itself noteworthy. These students have not found college as difficult as others have because of their training at Blue Ridge. The seeds of determination and stamina, which were sown at Blue Ridge, resulted in success for the majority of those who went to colleges or trade schools. As a result, many of these young people have found high paying jobs and have been successful in their careers. Many are grade and high school teachers; at least one is now teaching in a college. Those who have left our commercial and vocational departments have met with similar success. They now hold well paying jobs and have found satisfaction from their endeavors. For the most part, the Blue Ridge graduates of the last ten years all have one thing in common — all have found success, enjoyment and fulfillment in their lives. How much of this success can be attributed to Blue Ridge High School is a matter of conjecture, but the facts remain the same.

Today Blue Ridge is in a period of transition. Wholehearted student support has backed the efforts of the administration in making Blue Ridge a better place in which to study, because these attempts include constant change and reaching toward the intangible goals of unity and of school spirit. The sum of man's achievements cannot be measured in one decade. As Blue Ridge continues to strive for perfection, greater challenges will be met. Her achievements represent a better-educated people, and her progress is continual growth. It is to these concepts that we, the student body of Blue Ridge High School, dedicate this yearbook for 1969 to a "Decade At Blue Ridge High School".

MINISTRATION

HOWARD F. C. THOMAS, Superintendent

The Class of 1969 has the honor of being the tenth group to be graduated from the "new" Blue Ridge High School. You are the seventeenth class to receive diplomas from Blue Ridge.

Time passes quickly. It is our hope that we have prepared you in these few years you have spent in our schools to pursue your further education well or succeed in any other endeavor which you have chosen. The best wishes of all of your administrators, faculty, and school board members go to each and every one of you.

Administrators

CLAIR YOUNG, High School Principal

Seniors, we have tried to prepare you to continue on the pathways of life. The path you choose will be marked with the footprints of success or failure. We believe, that, if you follow the tenets that were offered to you at Blue Ridge High School the fruits of success will be your reward.

DR. EMORY STANLEY, Assistant Superintendent

Senior, you are ending your high school career but just beginning your way in life. It is my sincere hope that Blue Ridge has helped prepare you for this journey.

Knowledge can be memorized. Wisdom must think things through. Wisdom is something that enables us to use knowledge rightly.

Wisdom does not climb on the bandwagon. It does not follow the crowd. Wisdom resists group pressures, thinks for itself, and is reconciled to the use of its own judgment.

Think for yourself, but make sure you think first. Go forth and tackle the world and make Blue Ridge proud of its former student.
